

Dear Hiring Team at JPMorgan Chase

As a passionate Java Software Engineer, I am thrilled about the opportunity at JPMorgan Chase within the Consumer & Community Banking - Credit Card Management Team. I am excited to bring my 3+ years of applied experience in software engineering concepts, coupled with my proficiency in Core Java and Springboot, to contribute to designing and delivering cutting-edge technology products.

I am confident in my ability to execute software solutions, design secure production code, and troubleshoot technical issues effectively, aligning with the responsibilities outlined for the role. My experience in developing, debugging, and maintaining code in large corporate environments will enable me to thrive in a fast-paced, dynamic setting that prioritizes operational stability and technological innovation.

I admire Chase's commitment to diversity, equity, and inclusion, and I am enthusiastic about the opportunity to be part of a team that fosters a culture of respect and continuous learning. I am looking forward to the possibility of leveraging my technical skills, agile methodologies knowledge, and passion for excellence to contribute to the success and growth of Chase. Thank you for considering my application. I am eager to discuss how I can make significant contributions to your esteemed team.

Sincerely, Joshua Bernstein
